Piece Observed in Plant No 26 in Ufa

End view of piece  
screwed on end of  
hollow cylinder.  
The end piece's  
8 pipes, 20 cm  
in diameter,  
are probably  
combustion  
chambers

End piece  
screwed on  
hollow cylinder

shaft

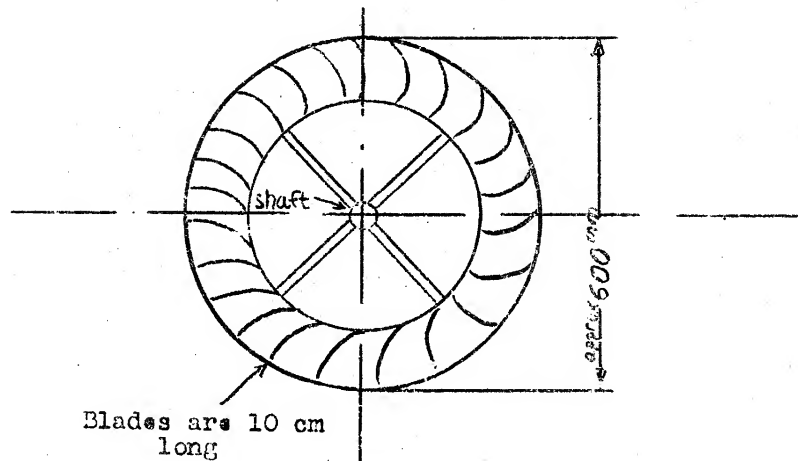

3500mm

approx 50 mm  
in diameter

8 air vane wheels  
assembled close  
together

This hollow space contained tubes  
of various diameters, painted yellow,  
white and green. Except for the  
combustion chambers (?) and the  
shaft the whole piece was made of  
light metal.

Air vane wheel  
(turbine wheel ?)
